TECHNICAL SKILLS

Frontend
React.js | Next.js | TypeScript | JavaScript (ES6+) | Tailwind CSS | HTML5 / CSS3

Backend & DB
Node.js | Express.js | RESTful APIs | MongoDB | Mongoose

Tools & Platforms
Git / GitHub | VS Code | Cursor / Claude | Postman | Vercel | Figma

Core Concepts
Responsive Design | JWT / BetterAuth | State Management | CRUD Logic

SAIFUL ISLAM

Full Stack Engineer

PROFESSIONAL SUMMARY

Passionate and detail-oriented Full Stack Developer with a strong foundation in modern web technologies. Recently completed an intensive AI-Driven Full Stack Web Engineering bootcamp at Programming Hero. Adept at building responsive, user-centric front-end interfaces and robust, scalable back-end APIs. Currently pursuing a B.Sc. in Computer Science & Engineering, combining academic theory with hands-on industry practices to deliver high-quality digital solutions.

KEY PROJECTS

MontCapital | Finance Landing Page — React.js, Tailwind CSS, Vercel

- Developed a highly responsive, pixel-perfect landing page for a modern financial service.
- Implemented UI/UX best practices to achieve ultra-fast load times and seamless navigation across mobile and desktop devices.

4Score | Finance Digital Product — Next.js, TypeScript, Tailwind CSS

- Built a dynamic dashboard interface engineered for tracking real-time financial metrics.
- Integrated complex data visualization modules and leveraged Next.js SSR for optimized load speed and SEO performance.

Evenvalue | SaaS Platform Interface — React, Tailwind CSS, Figma

- Translated intricate Figma design specs into clean, modular, and reusable React components.
- Prioritized accessibility (a11y) standards and maintained a unified design system throughout the codebase.

Compensel | Dashboard Interface — React, Tailwind CSS

- Created an intuitive data management dashboard featuring robust form validations, interactive tables, and custom modals.

EDUCATION & BOOTCAMP TRAINING

B.Sc. in Computer Science & Engineering — Running
[AIICT], Bangladesh

AI-Driven Full Stack Web Engineering — Completed
Programming Hero (Batch 14)

- Completed a rigorous 7-month project-based bootcamp mastering the complete MERN stack.
- Adopted modern engineering workflows including AI-assisted coding (Cursor, Claude), Git version control, and CI/CD deployment.
- Engineered 10+ full-stack web applications meeting tight delivery deadlines.
